Autoposy Checklist	X
Visera Treated	
Scalp and Cavities Cauterized	
Throat properly treated & restored	
Intercostal cut to create room	
abdominal & Thoracic walls Hypo'd	
Chest Hypo'd	
Buttocks Hypo'd	
Genitals Hypo'd	
Back muscles Hypo'd	
Shoulders Hypo'd	
*Viscera Bag drained and powdered	
Cranial Cavity Packed and dry	
Calvarium Secured	
Scalp Powdered with incision powder	
Post mortem incisions glued	

* Dry packing is preferred over a viscera bag if familiar with procedure. Cavity Fluid drained and viscera powdered after treatment helps prevent viscera bag from leaking.
